

## HANSON & FITCH

Temporary Site Services

### A Message from Hanson & Fitch, Inc.

As we face the threat of the spread of COVID-19/coronavirus, we wanted to update you about how we serve our customers and protect our employees.

- **Cleaning Our products:** We have always used medical-grade disinfecting products in servicing our portable restrooms. High touch areas like toilet seat, door handles, lock and toilet paper holders of each unit will be disinfected during routine servicing. We are adding the disinfecting of all inside walls and inside door to our disinfecting procedures. Hand wash stations will also be disinfected using this same hospital grade germicidal.
- **Personal Protective Equipment:** Personal protective equipment is provided for our Service Technicians, including but not limited to: double layered gloves, Nitrile disposable gloves, eye protection and masks. We are asking our technicians to use these items regularly at all jobsites.
- **Following CDC Guidance:** Restricted non-essential travel, will implement self-quarantine if necessary and disinfecting work spaces often.

If you require our services to assist with any sanitation needs, please notify us in advance (800)847-7037, if possible, so we can prepare and plan accordingly. We offer hand wash stations, sinks in our portable restrooms and hand sanitizer dispensers.

We are actively monitoring the situation and are committed to following the guidance of the CDC and government officials. Hanson & Fitch, Inc. is here to support you.

Stay safe and wash your hands,  
Hanson & Fitch, Inc.
